

Professional care

Qatar Airways Cargo is committed to providing special care, in compliance with IATA's Live Animal Regulations (LAR) and Qatar Airways Transportation of Wildlife and Animal Welfare (TAWA) Group Policy when transporting horses, household pets, livestock and exotic animals. We ensure a stress-free journey for the animals by keeping the transit time to minimum as they transfer from origin airport to the final destination. Our experienced team ensures round-the-clock care, the deployment of temperature-controlled compartments on board our freighters and cabin pressure system to provide a comfortable environment for the animals.

Equine

We offer world-class service for the transportation of thoroughbreds. With our modern fleet of Boeing 747, Boeing 777 and Airbus 330 freighters, controlled temperature zones, a network of more than 150 destinations, comfortable and spacious horse stalls and seats for grooms on-board the freighters, we guarantee the care, comfort, safety and reliability of smooth transportation for our equine guests.

Pets

We know how important your pet is to you. We ensure special care and treatment are offered all the way from origin airport to the destination. While pets are in transit at our state-of-the-art live animal centre in Doha, our friendly and fully-trained staff provide individual care and food to your pets.

Exotic

We offer specialised care to transport exotic animals such as kangaroos, bears, falcons, tigers, elephants, pandas and many more species for zoo exchange, breeding and preservation including rehabilitation programmes. Our dedicated staff ensure that these high-value exotic animals receive the care and attention they deserve.

Livestock

We are the experts in air transportation of livestock such as sheep and goats on scheduled and charter flights. Temperature-controlled compartments on board our freighters and cabin pressure system provide a comfortable environment for the animals.
